Anything Is Possible Giulia Belloni

The sheep in this story is a dreamer, while her friend the wolf has a more practical disposition. One day the sheep runs to the wolf with an idea. She wants to build a flying machine! But the wolf tells her it's impossible. Eventually, however, the sheep's dream gets the better of the wolf's doubts, and they begin to work on the project together. Through perseverance and the process of trial and error, the sheep and wolf manage to create a winning design, brought to life by architecturally and mathematically inspired paper collage art. At the end of this whimsical tale, even the wolf has to admit that anything is possible!
