Focus on Science and Society focuses on key ethical issues raised by groundbreaking scientific and technological advancements in today's society. This series looks at the importance, relevance, and morality of issues that fill today's headlines. It presents the basic scientific and technological terms, concepts, theories, and research behind these debates and emphasizes the need for ethical and responsible science. These up-to-date titles look at the balance that must be struck between the competing interests of science and society.

In the past, cloning was a figment of science fiction. However, ever since Dolly, the cloned sheep, was introduced in 1998, it has become an astonishing reality. Scientists around the world are facing the frontier of human cloning. Should the line be drawn here? What about using genetic engineering to "program" one's own unborn child? The author goes to the cutting edge of scientific research and examines its myriad of ethical consequences.

#### **Arthur Bailey:**

Information is provisions for folks to get better life, information nowadays can get by anyone on everywhere. The information can be a information or any news even restricted. What people must be consider while those information which is inside former life are hard to be find than now's taking seriously which one is appropriate to believe or which one typically the resource are convinced. If you obtain the unstable resource then you buy it as your main information you will have huge disadvantage for you. All of those possibilities will not happen with you if you take Genetic Engineering (Focus on Science and Society) as the daily resource information.

#### **Andrew Hulbert:**

As a student exactly feel bored in order to reading. If their teacher inquired them to go to the library or make summary for some reserve, they are complained. Just small students that has reading's heart and soul or real their hobby. They just do what the trainer want, like asked to go to the library. They go to right now there but nothing reading really. Any students feel that looking at is not important, boring along with can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Genetic Engineering (Focus on Science and Society) can make you truly feel more interested to read.
